Blind Date with a Book

There are no awkward questions, no forced conversation, no judgemental looks, no need to call.

Just have a blind date with a book!

Sure, it might turn out to be a dud, or it could be the diamond in the rough you wouldn't have given a chance otherwise.

There's no knowing until you check it out.

And if you don't like it, you can just bring it back and nobody's feelings will be hurt.

How will it end?
